

CORPORATE GOVERNANCE STATEMENT

Dated: 30 June 2018

Adopted by the Board on 26 October 2018.

Overview

The Board has created a framework for managing the Company, including internal controls and a business risk management process. This framework is reflected, in part, in the policies and charters described in this Statement of Corporate Governance.

The Board endorses the 3rd Edition of the ASX Corporate Governance Council Principles and Recommendations and this Statement outlines the Company's compliance with those Principles and Guidelines as amended from time to time.

The Board is responsible for the overall corporate governance of the Company, including the establishing and monitoring of key performance goals. It is committed to attaining standards of corporate governance that are commensurate with the Company's needs. The Company's Board of Directors has reviewed the recommendations outlined by ASX and notes that in the majority of instances the Company is meeting the standard required. In a limited number of instances, the Company has determined not to comply with the standard set out in the recommendations, largely due to the recommendation being considered by the Board to be unduly onerous for a Company of this size. Recommendations which the Company does not comply with are highlighted in this report.

The Company's corporate governance policies are located on the website.

The membership of the Board, its activities and composition is subject to periodic review. The criteria for determining the identification and appointment of a suitable candidate for the Board includes the quality of the individual, background of experience and achievement, compatibility with other Board members, credibility within the scope of activities of the Group and the ability to contribute to Board duties and responsibilities.

The background of each Director is set out in the Directors Report section of the Annual Report and on the Company's website.

Retirement, re-election and appointment of new Directors

The constitution of the Company notes that Directors cannot hold office for a period longer than three years without submitting themselves for re-election at the next AGM, one third of the Directors must retire by rotation at each AGM together with any new Directors appointed by the Board during the period since the last general meeting. Retiring Directors are eligible to stand for re-election.

If the Board decides to appoint a new member either to complement the existing members or fill a vacancy, it goes through the process of identifying a wide base of potential candidates with appropriate skills and with a view to meeting the objectives of its Diversity Policy. The Company ensures that all appointments to the Board are appropriately referenced checked in addition to individual criminal and bankruptcy checks. It also ensures that all relevant information is provided to security holders for the purpose of deciding on whether or not to elect or re-elect Directors.

The Company does not have a formal induction process, however, new Directors appointed to the Board are provided with written material incorporating Financial, Corporate and Operating information in relation to the Company. In addition they are provided with a detailed appointment letter outlining the Company's expectations and setting out the requirements of the role as well identifying director interests and potential conflicts.

Role of the Company Secretary

Principle 2: Structure the Board to Add Value

The Company's practice:

Nomination committee

The Company does not currently have a separate nomination committee and as such has not complied with Recommendation 2.1. The duties and responsibilities typically delegated to such a committee are dealt with by the full Board. Given the size and nature of the Company's activities the Board does not believe that any marked efficiencies or enhancements would be achieved by the creation of a separate nomination committee.

The Company does not have a formal induction process, however, new Directors appointed to the Board are provided with written material incorporating Financial, Corporate and Operating information in relation to the Company. In addition they are provided with a detailed appointment letter outlining the Company's expectations and setting out the requirements of the role as well identifying director interests and potential conflicts.

CORPORATE GOVERNANCE STATEMENT

The Company makes its expectations clear concerning the performance of Directors and Directors are given access to and encouraged to participate in continuing education opportunities to update and enhance their skills and knowledge.

Independent professional advice and access to company information

Each Director has the right of access to all relevant Company information and to the Company's executives and, subject to prior consultation with the Chairman, may seek independent professional advice from a suitably qualified advisor at the consolidated entity's expense. The Director must consult with an advisor suitably qualified in the relevant field and obtain the Chairman's approval of the fee payable for the advice before proceeding with the consultation. A copy of the advice received by the Director is made available to all other board members.

Roles of Chairman and Managing Director

The role of Chairman and Managing Director are exercised by separate individuals, and accordingly the Company complies with Recommendation 2.5 of the Corporate Governance Council.

Skills and Experience

The skill sets currently on the Company's Board include technical, financial, legal, managerial, corporate, and commercial.

The Board is presently comprised of three members, two of whom are Non-executive and one Executive Director. At this stage of the Company's development the Board believes that there is an appropriate mix of skills, experience, expertise and diversity on the Board. In the coming years as the Company assesses development options additional expertise may be required and at that time further consideration will be given to ensuring the Board has an appropriate mix of skills and diversity.

Independence

Corporate Governance Council Recommendation 2.4 requires a majority of the Board to be independent Directors. The Corporate Governance Council defines independence as being free from any business or other relationship that could materially interfere with, or could reasonably be perceived to materially interfere with, the exercise of unfettered and independent judgement. In accordance with this definition, the Company currently has no independent Directors.

The Board is of the view that, given the Company's size, the Board's current composition was the best structure for the Company's objectives during the period.

Principle 3: Promote Ethical and Responsible Decision Making

The Company's practice:

Ethical Standards

The Company has a formal Code of Conduct as per Recommendation 3.1. This code outlines how Directors and employees of the Company and its related bodies corporate are to behave when conducting business. A full copy of this Code of Conduct is available on the Company's website.

immediate family or any entity for which they control investment decisions), must ensure that any trading in securities issued by the Company is undertaken within the framework set out in the Securities Trading Policy.

The Securities Trading Policy does not prevent Directors or employees (including their immediate family or any entity for which they control investment decisions) from participating in any share plan or share offers established or made by the Company. However, Directors or employees are prevented from trading in the securities once acquired if the individual is in possession of price sensitive information not generally available to all security holders.

Additional restrictions are placed on trading by Directors, Executives and other key management personnel, as determined by the Chairman and Company Secretary from time to time (Key Management Personnel (KMP)). KMP and their associated parties are at all times prohibited from dealing in the Company's securities during prescribed 'closed' periods. The Company has nominated closed periods to be during the week prior to the release of the Company's Quarterly Reports (including the Appendix 5B) unless exceptional circumstances apply. KMP's must also obtain written consent from the Chairman or Company Secretary prior to trading in the Company's securities.

The Securities Trading Policy also includes a clause prohibiting Directors and Executives from entering into transactions in associated products which operate to limit the economic risk of security holdings in the Company over unvested entitlements.

In accordance with Listing Rules, a director must notify the ASX within 5 business days after any change in the director's relevant interest in securities of the Company or a related body corporate of the Company.

A director must notify the Company Secretary in writing of the requisite information within 2 business days in order for the Company Secretary to make the necessary notifications to ASIC and ASX as required by the Corporations Act and the ASX Listing Rules.

Principle 4: Safeguard Integrity in Financial Reporting

The Company's practice:

Audit and Risk Management Committee

The Board has not created a separate audit and risk management committee as, in the opinion of the Directors, the scope and size of the Company's operations do not warrant it.

As such the Company is not in strict compliance of the Council's Recommendation 4.1.

The Board as a whole are responsible for:

- reviewing internal control and recommending enhancements;
- monitoring compliance with Corporations Act 2001, Securities Exchange Listing Rules, matters outstanding with auditors, Australian Taxation Office, Australian Securities and Investment Commission and financial institutions;

- reviewing the performance of the external auditors on an annual basis.

Audit and Compliance Policy

The Board imposes stringent policies and standards to ensure compliance with all corporate financial and accounting standards. Where considered appropriate, the Company's external auditors, professional advisors and management are invited to advise the Board on these issues and the Board meets to consider audit matters prior to statutory reporting.

The Company requires that its auditors must not carry out any other major area of service to the Company and should have expert knowledge of both Australian and international jurisdictions.

The Board assumes responsibility to ensure that an effective internal control framework exists within the entity. This includes internal controls to deal with both the effectiveness and efficiency of significant business processes, the

CORPORATE GOVERNANCE STATEMENT

safeguarding of assets, the maintenance of proper accounting records, and the reliability of financial information. The Board maintains responsibility for a framework of internal control and ethical standards for the management of the consolidated entity.

The Board, consisting of members with financial expertise and detailed knowledge and experience of the mineral exploration and evaluation business, advise on the establishment and maintenance of a framework of internal control and appropriate ethical standards for the management of the Company. The Managing Director and Company Secretary declare in writing to the Board that the Company's financial reports for each financial reporting period present a true and fair view, in all material respects, of the Company's financial condition and operational results and are in accordance with relevant accounting standards. This statement is required each quarter, half year and annually.

The Company's auditor is required to be present, and be available to shareholders, at the Company's Annual General Meeting.

Principle 5: Make timely and balanced disclosure

The Company's practice:

Continuous Disclosure Policy

The Company has a formal Disclosure Policy, this policy was introduced to ensure the Company achieves best practice in complying with its continuous disclosure obligations under the Corporations Act and ASX Listing Rules and assists in ensuring the Company and individual officers do not contravene the Corporations Act or ASX Listing Rules. A full copy of this policy can be found on the Company's website.

The Company is required to immediately tell the ASX once it becomes aware of any information concerning it that a reasonable person would expect to have a material effect on the price or value of the entity's securities.

The Managing Director and the Company Secretary are responsible for co-ordinating the disclosure requirements. To ensure appropriate procedure all Directors, officers and employees of the Company coordinate disclosures through the Managing Director and the Company Secretary, including:

Shareholder Communication

It is the policy of the Company to communicate effectively with its shareholders by giving them ready access to balanced and understandable information about the Company and making it easier for them to participate in general meetings.

The Board encourages full shareholder participation at the Annual General Meeting as it provides shareholders an opportunity to review the Company's annual performance. Shareholder attendance also ensures a high level of accountability and identification with the Company's strategy and goals.

Principle 7: Recognise and Manage Risk

The Company's practice:

Risk Management

Recognise and Manage Risk

The Board has responsibility for the management of material business risks.

Risk oversight, management and internal control are dealt with on a continuous basis by management and the Board, with differing degrees of involvement from various Directors and management, depending upon the nature and materiality of the matter.

The Company's policy is to achieve levels of operation that balance risk and reward with the ultimate aim of optimising shareholder value.

Oversight of the risk management system

The Board takes a proactive approach to risk management. The Board is responsible for oversight of the processes whereby the risks, and also opportunities, are identified on a timely basis and that the Company's objectives and activities are aligned with the risks and opportunities identified by the Board. This oversight encompasses operational, financial reporting and compliance risks.

The Company believes that it is crucial for all Board members to be a part of the process, and as such the Board reviews all recommendations from management.

The Managing Director and Company Secretary have declared, in writing to the Board and in accordance with section 295A of the Corporations Act, that the financial reporting risk management and associated compliance and controls have been assessed and found to be operating efficiently and effectively. All risk assessments covered the whole financial year and the period up to the signing of the annual financial report for all material operations in the Company.

Internal control framework

The Company does not believe it is of a size that warrants an internal audit function. The Board acknowledges that it is responsible for the overall internal control framework, but recognizes that no cost effective internal control system will preclude all errors and irregularities. To assist in discharging this responsibility, the Board has instigated an internal control framework appropriate for the Company's size and stage of development.

Economic, Environmental and Social Sustainability Risks

The Company is focused on the discovery and exploitation of mineral deposits and operates in diverse physical environments primarily in Australia. As a result there is some potential for material exposure to economic, environmental and social sustainability risks.

The Company is very aware of the potential for risk in this area and is committed to ensuring that sound environmental management and safety practices are carried out in its exploration activities.

The Company is committed to environmental sustainability, recognising its obligations to practice good environmental "stewardship" of the tenements on which it operates.

The Company's activities are conducted in a manner that minimises our environmental impact as much as possible, and are conducted strictly in accordance with all necessary permits and approvals from regulators.

CORPORATE GOVERNANCE STATEMENT

Principle 8: Remunerate Fair and Responsibly

The Company's practice

Remuneration committee:

The Company believes it is not of a size to justify having a Remuneration Committee.

Remuneration policies:

The Board is responsible for determining and reviewing compensation arrangements for the Non-executive and Executive Directors, the Managing Director and the executive team.

It is the Company's objective to provide maximum stakeholder benefit from the retention of a high quality board and executive team by remunerating Directors and senior executives fairly and appropriately with reference to relevant employment market conditions. To assist in achieving this objective, the Board links the nature and amount of executive Directors' and senior executives' emoluments to the Company's financial and operational performance. The expected outcomes of the remuneration structure are:

1. Retention and motivation of senior executives;
2. Attraction of quality management to the Company; and
3. Performance incentives which allow executives to share the rewards of the success of the Company.

Remuneration of the Non-executive Directors is determined by the Board with reference to comparable industry levels and, specifically for Directors' fees, within the maximum amount approved by shareholders. There is no scheme to provide retirement benefits, other than statutory superannuation, to Non-executive Directors.

For details on the amount of remuneration and all monetary and non-monetary components for all Directors refer to the Remuneration Report in the Directors' Report, contained in the Company's Annual Report. In relation to the payment of bonuses, options and other incentive payments, discretion is exercised by the Board, having regard to the overall performance of the Company and the performance of the individual during the period.
