ABN 62 009 260 315

LETTER FROM THE CHAIRMAN

5 May 2011

Dear Shareholder

On behalf of the Directors of GME Resources Limited, I invite you to make a further investment in your Company.

The Company is pleased to offer all its shareholders a 1:15 non renounceable Entitlement Issue of 20,156,850 New Shares at an issue price of 8 cents per share to raise up to \$1,612,548.

The Company intends to raise funds so that the Company can continue to advance the development of the NiWest nickel project. The nickel price has recently recovered to above \$US25,000 per tonne with demand for nickel metal and importantly stainless steel increasing. Globally, nickel laterite ore sources now represent over 50% of raw metal supply.

The Company will use the funds to continue the study into the development of a standalone world class scale nickel-cobalt project. The envisaged project has the capacity to produce over 30,000 tonnes of nickel metal per year. Final project size is yet to be optimised for capital and operating costs and funding options. The Company completed a successful drill campaign late in 2010 resulting in a recent resource upgrade. Funds will also be used to continue to progress the definition of high grade ore sources across the project area, higher grade ores strengthen the economics of any development option, and to continue development of a number of gold projects. The Company is currently undertaking gold exploration at Linden, a high grade shallow gold target south of Laverton

The Company continues to work with Azure Capital as its financial adviser to assist in examining and developing strategic options and in particular seeking to attract investors to the project. The current market conditions, the application of funds from the rights issue and the appointment of Azure should assist in the development of the project.

The Entitlement Issue is not underwritten however Azure Capital has offered to place any shortfall on a best endeavours basis.

Accordingly, I encourage your participation in this Entitlement Issue. Should you wish to discuss any aspect of this capital raising please do not hesitate to contact myself, my fellow Directors or the Company Secretary, Mark Pitts on (08) 9316 9100

Yours faithfully

A handwritten signature in black ink, appearing to read 'Michael Perrott', written in a cursive style.

Mr Michael Perrott AM
Chairman

Entitlement Issue Offer Document

1. Introduction

GME Resources is making a non renounceable pro-rata offer of shares to shareholders of GME Resources to raise up to \$1,612,548.

This is an important document and requires your immediate attention. It should be read in its entirety.

The Offer is being made under section 708AA of the Corporations Act. This document is not a prospectus and does not contain all of the information that would ordinarily be contained in a prospectus.

Shareholders should be aware that investment in GME Resources involves many risks which may be higher than risks associated with investments in other companies. Investors should consider the investment in GME Resources speculative. If you are in doubt what to do or whether to accept the Offer you should consult your stockbroker, accountant, solicitor or other professional adviser without delay.

No person is authorised to give any information or to make any representation in connection with the Offer which is not contained in this Offer Document. Any information or representation not so contained may not be relied on as having been authorised by GME Resources in connection with the Offer.

2. Details of Offer

2.1 Offer

GME Resources is making a non renounceable pro-rata offer of shares each at an issue price of \$0.08 to persons registered as the holder of shares on the Record Date whose registered address is in Australia and New Zealand¹ (Eligible Shareholders) on the basis of one share for every fifteen shares held at the Record Date (Offer). Where the determination of the entitlement of any Eligible Shareholder results in a fraction of a share, such fraction will be rounded down to the nearest whole share. The Offer is not underwritten.

GME Resources will accept Entitlement and Acceptance Forms until 5.00pm WST on the Closing Date in the timetable below or such other date as the directors in their absolute discretion shall determine, subject to the requirements of the ASX Listing Rules.

Your entitlement is shown on the Entitlement and Acceptance Form accompanying this Offer. You may accept the Offer only by applying for shares on a personalised Entitlement and Acceptance Form sent with this Offer Document.

You may accept all or only part of your entitlement.

Acceptance of a completed Entitlement and Acceptance Form by GME Resources creates a legally binding contract between the applicant and GME Resources for the number of shares accepted or deemed to be accepted by the applicant. The Entitlement and Acceptance Form does not need to be signed by the applicant to be legally binding. The Offer and contract formed on acceptance are governed by the applicable law of Western Australia.

If the Entitlement and Acceptance Form is not completed correctly it may still be treated as valid. The directors' decision as to whether to treat the acceptance as valid and how to construe, amend or complete the Entitlement and Acceptance Form is final.

Shares offered by this Offer Document are expected to be issued, and security holder statements dispatched, on the date specified in the Timetable.

It is the responsibility of applicants to determine their allocation prior to trading in the shares. Applicants who sell shares before they receive their holding statements will do so at their own risk.

¹ Please note that, pursuant to the Securities Act (Overseas Companies) Exemption Notice 2002, those New Zealand shareholders at the Record Date who cease to hold shares between that date and the date on which the Offer opens (5 May 2011) are no longer eligible to participate in the Offer.

2.2 Timetable

Announcement of Offer and lodgement of Appendix 3B and Section 708AA Notice	18 Apr 2011
Notice to shareholders	20 Apr 2011
Record Date	2 May 2011
Offer Opens; Offer Document and Entitlement and Acceptance Form despatched to Eligible Shareholders	5 May 2011
Closing Date	20 May 2011
Notify ASX of shortfall	25 May 2011
Anticipated date for the issue of the shares and dispatch of holding statements	27 May 2011
Commencement of trading of the shares	27 May 2011

Subject to the ASX Listing Rules, the directors reserve the right to extend the Closing Date for the Offer. Any extension of the Closing Date will have a consequential effect on the anticipated date for issue of the shares.

2.3 Entitlement trading

The pro-rata offer of shares is non renounceable, which means that Eligible Shareholders may not sell or transfer all or any part of their entitlement to subscribe for shares.

2.4 Shortfall shares

If the Offer is not fully subscribed the directors reserve the right to issue the shortfall shares at their absolute discretion. The issue price for each shortfall share will be \$0.08. The Entitlement Issue is not underwritten however Azure Capital have offered to place any shortfall on a best endeavours basis. The Company has agreed to pay Azure Capital a fee in respect of the shortfall monies raised. This fee will be satisfied by the issue of ordinary shares in the Company issued at the same price as the entitlement issue.

2.5 ASX quotation and Deferred Settlement Trading

Application will be made to ASX for the official quotation of the shares to be issued under the Offer. If permission is not granted by ASX for the official quotation of the shares to be issued under the Offer, GME Resources will repay, as soon as practicable, without interest, all application monies received pursuant to the Offer. There will be no trading of shares on a deferred settlement basis. Trading of the shares will, subject to ASX approval, occur on or about the date specified in the Timetable.

2.6 Taxation implications

The directors do not consider it appropriate to give shareholders advice regarding the taxation consequences of subscribing for shares under this Offer Document. GME Resources, its advisers and its officers do not accept any responsibility or liability for any such taxation consequences to shareholders. As a result, shareholders should consult their professional tax adviser in connection with subscribing for shares under this Offer Document.

2.7 Overseas shareholders

This Offer Document does not constitute an offer in any place in which, or to any person to whom, it would not be lawful to make such an offer. It is intended only to make an offer to shareholders resident in Australia or New Zealand.

The distribution of this Offer Document in jurisdictions outside Australia may be restricted by law and persons who come into possession of this Offer Document should seek advice on and observe any of these restrictions. Failure to comply with these restrictions may violate securities laws. Applicants who are resident in countries other than Australia should consult their professional advisers as to whether any governmental or other consents are required or whether any other formalities need to be considered and followed.

The Offer to New Zealand investors is being made pursuant to the New Zealand Securities Act (Overseas Companies) Exemption Notice 2002.

No person is authorised to give information or to make any representation in connection with this Offer Document which is not contained in the Offer Document. Any information or representation not so contained may not be relied on as having been authorised by the Company in connection with this Offer Document.

In making representations in this Offer Document regard has been had to the fact that the Company is a disclosing entity for the purposes of the Corporations Act and certain matters may reasonably be expected to be known to investors and professional advisers whom potential investors may consult.

2.8 Privacy

GME Resources collects information about each applicant provided on an Entitlement and Acceptance Form for the purposes of processing the application and, if the application is successful, to administer the applicant's security holding in GME Resources.

By submitting an Entitlement and Acceptance Form, each applicant agrees that GME Resources may use the information provided by an applicant on the Entitlement and Acceptance Form for the purposes in this privacy disclosure statement and may disclose it for those purposes to the share registry, GME Resources' related bodies corporate, agents, contractors and third party service providers, including mailing houses and professional advisers, and to ASX and regulatory authorities.

If you do not provide the information required on the Entitlement and Acceptance Form, GME Resources may not be able to accept or process your application.

An applicant has a right to gain access to the information that GME Resources holds about that person subject to certain exemptions under law. A fee may be charged for access. Access requests must be made in writing to GME Resources' registered office.

2.9 Enquiries

Enquiries concerning the Entitlement and Acceptance Form can be obtained by contacting Computershare Investor Services Pty Limited by telephone - 1300 263 821 (within Australia) and 03 9415 4000 (outside Australia). The addresses for Computershare Investor Services Pty Limited are

By delivery: Computershare Investor Services Pty Ltd, Level 2, 45 St Georges Terrace, Perth WA 6000

By post: Computershare Investor Services Pty Ltd, Locked Bag 2508, Perth WA 6001

3. Capital Structure on Completion of the Issue

Assuming Full Subscription

Issued Capital	Notes	Number of Shares	Number of Options	Share Capital \$
Issued capital at the date of this Offer		302,352,750	10,000,000	47,480,776
Offer	1 & 2	20,156,850	-	1,590,548
Total securities after the Issue	3	322,509,600	10,000,000	49,071,324

1 Assumes that the Offer is fully subscribed.

2 Assumes that costs associated with the Offer are \$22,000 with proceeds from the Offer being used as set out in section 4.

3 The option holders have been notified and given an opportunity to exercise their options to acquire ordinary shares in the Company in order to participate in the pro rata issue. Full subscription as set out above assumes no options are exercised.

4. Use of Funds

The funds to be raised from the Offer will be applied to the following areas:

Use of Funds	Full Subscription
Total Raised in the Offer	1,612,548
Costs of issue	22,000
Net amount raised	1,590,548
Feasibility Study and project evaluation	600,000
Mining Tenement rates and rents	480,000
Working Capital	510,548
Funds Applied	1,590,548

To the extent that the funds raised fall below the level shown above, the Directors will determine the most appropriate level of expenditure by category and project area, however, the shortfall will be deducted firstly from Feasibility Study and project evaluation and then the Drilling on a proportionate basis. The Directors are of the opinion that on completion of the Offer there will be sufficient working capital for the Company to meet its stated objectives.

5. Risk Factors

Potential investors in the Company should be aware that subscribing for shares involves a number of risks. The risk factors outlined in this Section and elsewhere in this Offer should be carefully considered by investors when evaluating an investment in the Company. In addition, investors should appreciate that the value of shares and options on ASX may rise or fall depending on a range of factors beyond the control of the Company. This is especially the case with companies undertaking mining and exploration activities.

Any of the factors set out in this Section or any other factors identified in this Offer may materially affect the financial performance of the Company and the market price of the shares. To that extent the shares carry no guarantee with respect to the payment of dividends, return on capital or the price at which those shares will trade on the ASX.

The Directors consider that an investment in the Company should be considered speculative due to:

- the recent volatility in publicly listed entities on world stock markets generally, and of mining and exploration companies in particular; and
- the speculative nature of mining and exploration activities.

While the Company plans to take prudent measures to safeguard from, or mitigate its exposure to these risks, many of the risks are outside of the Company's control.

There are a number of risk factors that investors should consider before deciding whether or not to invest in the shares. The principal risk factors include, but are not limited to, the following:

5.1 Security Investments

Applicants should be aware that there are risks associated with any securities investment. The prices at which the shares trade may be above or below the Offer Price, and may fluctuate in response to a number of factors.

Further, the stock market and in particular the market for mining and exploration companies have experienced price and volume fluctuations that have often been unrelated or disproportionate to the operating performance of such companies. There can be no guarantee that these trading prices will be sustained. These factors may materially affect the market price of the shares, regardless of the Company's operational performance. Neither the Company nor the Directors warrant the future performance of the Company or any return on an investment in the Company.

5.2 Exploration and Development Risks

Mineral exploration and mining are high risk enterprises, only occasionally providing high rewards. In addition to the normal competition for prospective ground, and the high average costs of discovery of an economic deposit, factors such as demand for commodities, stock market fluctuations affecting access to new capital, sovereign risk, environmental issues, labour disruption, project financing difficulties, foreign currency fluctuations and technical problems all affect the ability of a company to profit from any discovery.

There is no assurance that exploration and development of the mineral interests held by the Company, or any other projects that may be acquired in the future, will result in the discovery of an economic ore deposit. Even if an apparently viable deposit is identified, there is no guarantee that it can be profitably exploited.

5.3 Resource Estimates

Resource estimates are expressions of judgment based on knowledge, experience and industry practice. Estimates which were valid when made may change significantly when new information becomes available.

In addition, resource estimates are necessarily imprecise and depend to some extent on interpretations, which may prove to be inaccurate. Should the Company encounter mineralisation or formations different from those predicted by past drilling, sampling and similar examinations, resource estimates may have to be adjusted and mining plans may have to be altered in a way which could adversely affect the Company's operations.

5.4 Title

All of the tenements in which the Company holds or may earn an interest in, will be subject to applications for renewal. The renewal of the term of each tenement is at the discretion of the responsible Minister.

If a tenement is not renewed, the Company may suffer significant damage through loss of the opportunity to develop and discover any mineral resources on that tenement.

5.5 Native Title Risks

Some or all of the mining tenements held by the Company may be subject to native title claims in the future. Should a native title claim be lodged in respect to one of the Company's mining tenements, it may have a material adverse effect on the Company's business and its financial condition and performance.

5.6 Policies and Legislation

Any material adverse changes in government policies or legislation affecting mining and exploration activities may affect the viability and profitability of the Company.

5.7 Joint Venture Parties and Contractors

The Directors are unable to predict the risk of:

- financial failure or default by a participant in any joint venture to which the Company is, or may become, a party; or
- insolvency or other managerial failure by any of the contractors used by the Company in its exploration or other activities; or
- insolvency or other managerial failure by any of the other service provider used by the Company for any activity.

5.8 Future Capital Needs and Additional Funding

The future capital requirements of the Company will depend on many factors including the results of any future exploration and work programs, and the ability to successfully exploit identified mineral deposits. The Company believes its available cash and the net proceeds of this Offer should be adequate to fund the continued exploration and development of the projects and other Company objectives as stated in this Offer.

Should the Company require additional funding there can be no assurance that additional financing will be available on acceptable terms, or at all. Any inability to obtain additional finance, if required, would have a material adverse effect on the Company's business and its financial condition and performance.

5.9 Operating Risks

Many of the Company's mineral assets are in a pre-development phase. As a result, the Company will be subject to all the risks inherent in the establishment of new mining operations. No assurances can be given to the level of viability that the Company's operations may achieve.

The operations of the Company, if and when it commences production, may be disrupted by a variety of risks and hazards which are beyond the control of the Company, including environmental hazards, industrial accidents, technical failures, labour disputes, unusual or unexpected rock formations, flooding and extended interruptions due to inclement or hazardous weather conditions, fire, explosions and other incidents beyond the control of the Company.

These risks and hazards could also result in damage to, or destruction of, production facilities, personal injury, environmental damage, business interruption, monetary losses and possible legal liability. While the Company currently intends to maintain insurance within ranges of coverage consistent with industry practice, no assurance can be given that the Company will be able to obtain such insurance coverage at reasonable rates (or at all), or that any coverage it obtains will be adequate and available to cover any such claims.

5.10 Commodity Price Volatility

It is anticipated that any revenues derived from mining will primarily be derived from the sale of nickel and cobalt. Consequently, any future earnings are likely to be closely related to the price of these commodities and the terms of any off-take agreements which the Company enters into.

Nickel and cobalt prices may fluctuate and are affected by numerous factors beyond the control of the Company. These factors include world demand for nickel, cobalt, copper and gold, forward selling by producers, and production cost levels in other nickel, copper and gold producing regions.

Moreover, nickel and cobalt prices are also affected by macroeconomic factors such as expectations regarding inflation, interest rates, currency and exchange rate fluctuations, and global and regional demand for, and supply of, the metals as well as general global economic conditions. These factors may have an adverse effect on the Company's exploration, development and production activities, as well as on its ability to fund those activities.

5.11 Environmental Risks

The Company's projects are subject to Western Australian and Federal Australian laws and regulations regarding environmental matters and the discharge of hazardous wastes and materials. As with all mining projects, these projects would be expected to have a variety of environmental impacts should development proceed. The Company intends to conduct its activities in an environmentally responsible manner and in accordance with applicable laws.

5.12 Economic Risk

Changes in customer preference or the general economic climate in which the Company operates may adversely affect the financial performance of the Company. Factors which may contribute to that general economic climate include the level of direct and indirect competition against the Company, industrial disruption in Australia, the rate of growth of Australia's gross domestic product, interest rates and the rate of inflation.

5.13 Reliance on Key Personnel

The Company is reliant on a number of key employees. The loss of one or more of its key personnel could have an adverse impact on the business of the Company.

5.14 Tax Reform

The Australian Government has indicated that it may introduce further tax reform. The introduction and scope of this further tax reform is uncertain. Until the precise nature of this reform is determined, the Company is not able to give any assurance as to the impact on its operating and financial performance.

6. Action Required by Shareholders

6.1 Acceptance of shares under this Offer Document

Should you wish to accept all of your entitlement to subscribe for shares, then applications for shares under this Offer Document must be made on the Entitlement and Acceptance Form which accompanies this Offer Document, in accordance with the instructions referred to in this Offer Document and on the Entitlement and Acceptance Form. Please read the instructions carefully.

If you are using the BPay facility as per the instruction on the Entitlement and Acceptance form you do not need to return the form as your acceptance and details are recorded electronically.

If you wish to pay manually, please complete the Entitlement and Acceptance Form by filling in the details in the spaces provided and attach a cheque for the amount indicated on the Entitlement and Acceptance Form.

Completed Entitlement and Acceptance Forms must be accompanied by a cheque in Australian dollars, crossed 'Not Negotiable' and made payable to 'GME Resources Limited – NRE A/C' and lodged at any time after the issue of this Offer Document and on or before the Closing Date at GME Resources' share registry (by delivery or by post) at the addresses in section 2.9 above.

6.2 If you do not wish to take up your entitlement or you wish to take up only part of your entitlement

Should you wish to only take up part of your entitlement, then applications for shares under this Offer Document must be made on the Entitlement and Acceptance Form which accompanies this Offer Document in accordance with the instructions referred to in this Offer Document and on the Entitlement and Acceptance Form. Please read the instructions carefully.

Unless you are using the BPay Facility, please complete the Entitlement and Acceptance Form by filling in the details in the spaces provided, including the number of shares you wish to accept and the amount payable (calculated at \$0.08 per share accepted), and attach a cheque for the appropriate application monies.

If you do not wish to accept any of your entitlement, you are not obliged to do anything. In that case, shares not accepted by the Closing Date will become shortfall shares and you will receive no benefit.

This page has been left blank intentionally.

ABN 62 009 260 315

Notification under section 708AA(2)(f) of the Corporations Act 2001 (Cth)

GME Resources Limited (ASX Code: GME)

GME Resources Limited (GME) is making a pro-rata non-renounceable entitlement issue (the Entitlement Issue) to eligible security holders with registered addresses in Australia and New Zealand.

The Entitlement Issue is being made on the basis of 1 New Share for every 15 shares held at the Record Date (2 May 2011).

GME confirms that pursuant to section 708AA(2)(f) of the Corporations Act 2001 (Cth) (Corporations Act) that:

1. GME will offer approximately 20,156,850 fully paid ordinary shares for issue without disclosure to investors under Part 6D.2 of the Corporations Act pursuant to a non-renounceable entitlement offer announced to ASX on 5 May 2011.
2. As at the date of this notice, GME has complied with:
 - (a) the provisions of Chapter 2M of the Corporations Act as they apply to GME; and
 - (b) section 674 of the Corporations Act.
3. As at the date of this notice, there is no information:
 - (a) that has been excluded from a continuous disclosure notice in accordance with the ASX Listing Rules; and
 - (b) that investors and their professional advisers would reasonably require for the purpose of making an informed assessment of:
 - A. the assets and liabilities, financial position and performance, profits and losses and prospects of the Company; or
 - B. the rights and liabilities attaching to the shares for issue.

Control

The Entitlement Issue being made by GME will mean up to 20,156,850 New Shares (subject to rounding) are issued. Upon completion of the Entitlement Issue the issued capital of GME Resources Ltd will be approximately 322.5 million ordinary shares.

ABN 62 009 260 315

Control will be affected by the level of applications under the Entitlement Issue. Based on current disclosures made by substantial shareholders in GME:

- (a) the maximum percentage shareholding any existing shareholder could attain through taking up their entitlement would be 27.8%; and

The final percentage interests held by substantial shareholders of GME Resources is entirely dependant on the extent to which other security holders take up their entitlements. On consideration of the matters summarised above GME expects that the potential effect of the issue of New Shares under the Entitlement Issue on the control of GME will be minimal and that there is not likely to be any consequence of that effect.

Dated this 6th day of May 2011
