

# Appointment of Project Advisor

8 November 2017

---

## HIGHLIGHTS

- **Highly experienced mining executive Mr Len Jubber appointed as Project Advisor to support the advanced feasibility studies for the NiWest Ni-Co Project**
- **Mr Jubber has a strong technical and corporate background including the heap leach operations being considered at the NiWest Project**
- **Pre-Feasibility Study for NiWest Project on track to be completed by March 2018**

GME Resources Limited (“**GME**” or “**the Company**”) (GME:ASX) advises that it has appointed Mr Len Jubber as Project Advisor to support the feasibility study on its 100%-owned NiWest Nickel-Cobalt Project in Western Australia (“**NiWest**” or “**NiWest Project**”).

Mr Jubber is a mining engineer with 30 years experience in the industry. In his previous role as Managing Director of Bannerman Resources Limited, Mr Jubber oversaw the completion of a definitive feasibility study including the successful operation of the heap leach demonstration plant for the Etango Uranium Project in Namibia.

He has also held the roles of Managing Director of base metal miner Perilya Limited and Chief Operating Officer and Executive Director of gold miner OceanaGold Limited.

Mr Jubber will with immediate effect contribute to the oversight and completion of the Pre-Feasibility Study (“**PFS**”) for the NiWest Project. The PFS is on track for completion by March 2018.
