Dispatch of holding statements and commencement of trading	10 August 2020

Subject to the ASX Listing Rules, the directors reserve the right to extend the Closing Date for the Offer. Any extension of the Closing Date will have a consequential effect on the anticipated date for issue of the shares. The commencement of quotation of new shares is subject to confirmation from ASX.

ABN 62 009 260 315

LETTER FROM THE CHAIRMAN

14 July 2020

Dear Shareholder

On behalf of the Directors of GME Resources Limited, I invite you to make a further investment in your Company.

The Company is pleased to offer Eligible Shareholders a 1:10 renounceable Entitlement Issue at an issue price of 3 cents per share to issue 50,624,292 shares (New Shares) to raise gross proceeds up to A\$1,518,729.

I am pleased to advise that the Company's major shareholder, Zeta Resources Limited, and the Directors intend to take up their Entitlements in full for a combined amount of A\$915,819

Following the release of results from the Pre-Feasibility Study ("PFS") on the Company's 100%-owned NiWest Nickel-Cobalt Project in August 2018, the Company has been examining various value engineering opportunities, identified by the PFS, and maintaining and continuing dialogue with potential strategic partner/offtake parties on development options for the NiWest Nickel-Cobalt Project.

The PFS confirmed the technical and financial robustness of a long-life operation directly producing high-purity nickel and cobalt sulphate products to be delivered into the forecast rapid growth of lithium-ion battery raw material markets and the opportunities being pursued have the potential to improve NiWest project economics

In addition infill drilling programs and exploration work are planned at the Company's Fairfield and Homeward Bound / Federation gold prospects located in close proximity to the NiWest Nickel – Cobalt Project.

Funds raised from the issue will be used to further assess these opportunities and for general working capital purposes.

Accompanying this Offer Booklet is your personalised Entitlement and Acceptance Form which details your entitlement and sets out the instructions for participating in the issue.

Accordingly, I encourage your participation in this Entitlement Issue. Please note the Closing date of **31 July 2020**. Should you wish to discuss any aspect of this capital raising please do not hesitate to contact myself, my fellow Directors or the Company Secretary, Mark Pitts on (08) 9316 9100

Yours faithfully

Mr Peter Sullivan
Chairman

Entitlement Issue Offer Document

1. Introduction

GME Resources Limited (GME Resources or the Company) is making a renounceable pro-rata offer of shares to Eligible Shareholders, at the Record Date, of GME Resources with a registered address in Australia and New Zealand to raise up to A\$1,518,729 before costs.

This is an important document and requires your immediate attention. It should be read in its entirety.

The Offer is being made under section 708AA of the Corporations Act. This document is not a prospectus and does not contain all of the information that would ordinarily be contained in a prospectus.

Shareholders should be aware that investment in GME Resources involves many risks which may be higher than risks associated with investments in other companies. Investors should consider the investment in GME Resources speculative. If you are in doubt what to do or whether to accept the Offer you should consult your stockbroker, accountant, solicitor or other professional adviser without delay.

No person is authorised to give any information or to make any representation in connection with the Offer which is not contained in this Offer Document. Any information or representation not so contained may not be relied on as having been authorised by GME Resources in connection with the Offer.

2. Details of Offer

2.1 Offer

GME Resources is making a renounceable pro-rata offer of New Shares each at an issue price of \$0.03 to persons registered as the holder of shares on the Record Date whose registered address is in Australia and New Zealand¹ (**Eligible Shareholders**) on the basis of one (1) share for every ten (10) shares held at the Record Date (**Offer**). Where the determination of the entitlement of any Eligible Shareholder results in a fraction of a share, such fraction will be rounded down to the nearest whole share.

GME Resources will accept Entitlement and Acceptance Forms until 5.00pm WST on the Closing Date in the Timetable set out on page 1 or such other date as the directors in their absolute discretion shall determine, subject to the requirements of the ASX Listing Rules.

The number of New Shares to which you are entitled (**Entitlement**) is shown on the Entitlement and Acceptance Form accompanying this Offer. You may accept the Offer only by applying for shares on a personalised Entitlement and Acceptance Form sent with this Offer Document.

You may accept all or only part of your Entitlement. If you decide not to accept your Entitlement you can renounce (sell) the entitlement (refer section 2.2). If the Entitlement is not accepted or renounced, it will lapse and may be placed by the Directors as Shortfall securities in accordance with section 2.3.

Acceptance of a completed Entitlement and Acceptance Form by GME Resources creates a legally binding contract between the applicant and GME Resources for the number of shares accepted or deemed to be accepted by the applicant. The Entitlement and Acceptance Form does not need to be signed by the applicant to be legally binding. The Offer and contract formed on acceptance are governed by the applicable law of Western Australia.

If the Entitlement and Acceptance Form is not completed correctly it may still be treated as valid. The directors' decision as to whether to treat the acceptance as valid and how to construe, amend or complete the Entitlement and Acceptance Form is final.

New Shares offered by this Offer Document are expected to be issued, and security holder statements dispatched, on the date specified in the Timetable.

It is the responsibility of applicants to determine their allocation prior to trading in the shares. Applicants who sell shares before they receive their holding statements will do so at their own risk.

¹Please note that, pursuant to the Securities Act (Overseas Companies) Exemption Notice 2002, those New Zealand shareholders at the Record Date who cease to hold shares between that date and the date on which the Offer opens (14 July 2020) are no longer eligible to participate in the Offer.

2.2 Entitlement trading

The Entitlement Issue is renounceable, which means that Eligible Shareholders may sell or transfer all or any part of their Entitlement. This means that Eligible Shareholders are able to renounce (sell) the entitlement and Entitlements which they do not wish to accept, in order to realise the value which may attach to their Entitlement. Entitlement trading is expected to commence on 8 July 2020 and conclude on 24 July 2020.

2.3 Shortfall shares

The Directors reserve the right to allocate the Shortfall at their absolute discretion.

2.4 ASX quotation and Deferred Settlement Trading

Application will be made to ASX for the official quotation of the New Shares to be issued under the Offer. If permission is not granted by ASX for the official quotation of the New Shares to be issued under the Offer, GME Resources will repay, as soon as practicable, without interest, all application monies received pursuant to the Offer.

There will be trading of shares on a deferred settlement basis. Trading of the New Shares will, subject to ASX approval, occur on or about the date specified in the Timetable.

2.5 Taxation implications

The directors do not consider it appropriate to give shareholders advice regarding the taxation consequences of the Entitlements under this Offer Document. GME Resources, its advisers and its officers do not accept any responsibility or liability for any such taxation consequences to shareholders. As a result, shareholders should consult their professional tax adviser in connection with the Entitlements under this Offer Document.

2.6 Overseas shareholders

This Offer Document does not constitute an offer in any place in which, or to any person to whom, it would not be lawful to make such an offer. It is intended only to make an offer to shareholders resident in Australia and New Zealand. The Company has formed this view after an examination of the register which indicated 98% of holders reside in Australia and New Zealand and will be eligible to participate in the offer.

Therefore, the Company is of the view that it is unreasonable to make an offer to shareholders outside of Australia and New Zealand (Ineligible Shareholders) having regard to:

- (a) the number of shareholders outside of Australia and New Zealand;
- (b) the number and value of the securities to be offered to shareholders outside of Australia and New Zealand; and
- (c) the cost of complying with the legal requirements and requirements of regulatory authorities in the overseas jurisdictions.

The distribution of this Offer Document in jurisdictions outside Australia and New Zealand may be restricted by law and persons who come into possession of this Offer Document should seek advice on and observe any of these restrictions. Failure to comply with these restrictions may violate securities laws. Applicants who are resident in countries other than Australia and New Zealand should consult their professional advisers as to whether any governmental or other consents are required or whether any other formalities need to be considered and followed.

The Offer to New Zealand investors is being made pursuant to the New Zealand Securities Act (Overseas Companies) Exemption Notice 2002.

No person is authorised to give information or to make any representation in connection with this Offer Document which is not contained in the Offer Document. Any information or representation not so contained may not be relied on as having been authorised by the Company in connection with this Offer Document.

In making representations in this Offer Document regard has been had to the fact that the Company is a disclosing entity for the purposes of the Corporations Act and certain matters may reasonably be expected to be known to investors and professional advisers whom potential investors may consult.

Members of the public in Australia and New Zealand who are not existing shareholders on the Record Date are not entitled to apply for any shares.

2.7 Foreign Selling Restrictions

The information has been prepared to comply with the requirements of the securities laws of Australia.

The Offer Booklet does not constitute an offer in any jurisdiction in which, or to any person to whom, it would not be lawful to make such an offer. No action has been taken to register or qualify the Entitlement Offer, the Entitlements, or the New Shares, or otherwise permit the public offering of the New Shares, in any jurisdiction other than Australia.

The distribution of this information (including an electronic copy) outside Australia and New Zealand may be restricted by law. If you come into possession of this information, you should observe such restrictions and should seek your own advice on such restrictions.

New Zealand

The Entitlements and the New Shares are not being offered or sold to the public in New Zealand other than to existing shareholders of GME with registered addresses in New Zealand to whom the offer of these securities is being made with reliance on the Financial Markets Conduct Act 2013 (New Zealand) and the Financial Markets Conduct (Incidental Offers) Exemption Notice 2016 (New Zealand).

This document contains an offer to Eligible Shareholders of continuously quoted securities and has been prepared in compliance with Australian law and has not been registered, filed with or approved by and New Zealand regulatory authority. This document is not a product disclosure statement under New Zealand law and is not required to, and may not, contain all the information that a product disclosure statement under New Zealand law is required to contain.

2.8 Privacy

GME Resources collects information about each applicant provided on an Entitlement and Acceptance Form for the purposes of processing the application and, if the application is successful, to administer the applicant's security holding in GME Resources.

By submitting an Entitlement and Acceptance Form, each applicant agrees that GME Resources may use the information provided by an applicant on the Entitlement and Acceptance Form for the purposes in this privacy disclosure statement and may disclose it for those purposes to the share registry, GME Resources' related bodies corporate, agents, contractors and third party service providers, including mailing houses and professional advisers, and to ASX and regulatory authorities.

If you do not provide the information required on the Entitlement and Acceptance Form, GME Resources may not be able to accept or process your application.

An applicant has a right to gain access to the information that GME Resources holds about that person subject to certain exemptions under law. A fee may be charged for access. Access requests must be made in writing to GME Resources' registered office.

2.9 Enquiries

Enquiries concerning the Offer should be directed to the Company Secretary, on (08) 9316 9100.

3. Effect of the Offer

3.1 Capital Structure on Completion of the Offer

Assuming Full Subscription

Issued Capital	Notes	Number of Shares
Issued capital at the date of this Offer		506,242,920
Entitlement Offer	1	50,624,292
Total securities on issue on completion		556,867,212

¹ Assumes that the Offer is fully subscribed.

3.2 Effect of Offer on control of the Company

Shareholders should note that if they do not participate in the Entitlement Issue, their holdings will be diluted. Examples of the dilution may impact Shareholder are detailed in the table below.

Shareholder	Holding as at Record Date	% at Record Date (subject to rounding)	Entitlement under the Offer (subject to rounding)	Holding if Offer not taken up (assuming all Shares are issued under the Offer/Shortfall)	% post completion of the Offer (subject to rounding) ¹
Shareholder 1	10,000,000	1.98%	1,000,000	10,000,000	1.80%
Shareholder 2	5,000,000	0.99%	500,000	5,000,000	0.90%
Shareholder 3	1,000,000	0.20%	1000,000	1,000,000	0.18%
Shareholder 4	100,000	0.02%	10,000	100,000	0.02%
Shareholder 5	50,000	0.01%	5,000	50,000	0.01%

¹ The dilutionary effect shown in the table is the maximum percentage on the assumption that those Entitlements not taken up are dealt with as Shortfall and are placed by the Company.

The Company's major shareholder and Directors have indicated that they intend to take up their full Entitlements under the offer. Control will be affected by the level of applications under the Entitlement Issue. Based on current disclosures made by substantial shareholders in the Company the maximum percentage shareholding any existing shareholder could attain through taking up their entitlement would increase from 44.20% to 46.56%.

The final percentage interests held by substantial shareholders of the Company is entirely dependent on the extent to which other shareholders take up their Entitlements.

The Company expects that the potential effect of the issue of shares under the Entitlement Issue on the control of the Company will be minimal.

4. Use of Funds

The funds to be raised from the Offer will be applied to the following areas:

Use of Funds	Full Subscription (A\$)
Total Raised in the Offer	1,518,728
Less: Costs of issue	21,743
Net amount raised	1,496,986
Ongoing exploration and evaluation activity incorporating:	746,986
- ongoing discussions with potential strategic partner/offtake parties on development options for the NiWest Nickel-Cobalt Project;	
- infill drilling programs and exploration at the Fairfield and Homeward Bound / Federation gold prospects.	
General and administration	520,000
Working capital	230,000
Funds Applied	1,496,986

To the extent that the funds raised fall below the level shown above, the Directors will determine the most appropriate level of expenditure by category and project area, however, funds raised will be firstly applied to expenses of the Offer, then general working capital and thereafter to exploration and evaluation activity and as noted above.

The Directors are of the opinion that on completion of the Offer there will be sufficient working capital for the Company to meet its stated objectives.

5. Risk Factors

Potential investors in the Company should be aware that subscribing for shares involves a number of risks. The risk factors outlined in this Section and elsewhere in this Offer should be carefully considered by investors when evaluating an investment in the Company. In addition, investors should appreciate that the value of shares and options on ASX may rise or fall depending on a range of factors beyond the control of the Company. This is especially the case with companies undertaking mining and exploration activities.

Any of the factors set out in this Section or any other factors identified in this Offer may materially affect the financial performance of the Company and the market price of the shares. To that extent the shares carry no guarantee with respect to the payment of dividends, return on capital or the price at which those shares will trade on the ASX.

The Directors consider that an investment in the Company should be considered speculative due to:

- the recent volatility in publicly listed entities on world stock markets generally, and of mining and exploration companies in particular; and
- the speculative nature of mining and exploration activities.

While the Company plans to take prudent measures to safeguard from, or mitigate its exposure to these risks, many of the risks are outside of the Company's control.

There are a number of risk factors that investors should consider before deciding whether or not to invest in the shares. The principal risk factors include, but are not limited to, the following:

5.1 Security Investments

Applicants should be aware that there are risks associated with any securities investment. The prices at which the shares trade may be above or below the Offer Price, and may fluctuate in response to a number of factors.

Further, the stock market and in particular the market for mining and exploration companies have experienced price and volume fluctuations that have often been unrelated or disproportionate to the operating performance of such companies. There can be no guarantee that these trading prices will be sustained. These factors may materially affect the market price of the shares, regardless of the Company's operational performance. Neither the Company nor the Directors warrant the future performance of the Company or any return on an investment in the Company.

5.2 Exploration and Development Risks

Mineral exploration and mining are high risk enterprises, only occasionally providing high rewards. In addition to the normal competition for prospective ground, and the high average costs of discovery of an economic deposit, factors such as demand for commodities, stock market fluctuations affecting access to new capital, sovereign risk, environmental issues, labour disruption, project financing difficulties, foreign currency fluctuations and technical problems all affect the ability of a company to profit from any discovery.

There is no assurance that exploration and development of the mineral interests held by the Company, or any other projects that may be acquired in the future, will result in the discovery of an economic ore deposit. Even if an apparently viable deposit is identified, there is no guarantee that it can be profitably exploited.

The Company is currently working through a pre-feasibility study to determine if a particular process flow sheet will meet with its stated goals and objectives. There can be no guarantees that the scientific, geological, engineering and economic objectives can be met.

5.3 Resource Estimates

Resource estimates are expressions of judgment based on knowledge, experience and industry practice. Estimates which were valid when made may change significantly when new information becomes available.

In addition, resource estimates are necessarily imprecise and depend to some extent on interpretations, which may prove to be inaccurate. Should the Company encounter mineralisation or formations different from those predicted by past drilling, sampling and similar examinations, resource estimates may have to be adjusted and mining plans may have to be altered in a way which could adversely affect the Company's operations.

5.4 Title

All of the tenements in which the Company holds or may earn an interest in, will be subject to applications for renewal. The renewal of the term of each tenement is at the discretion of the responsible Minister.

If a tenement is not renewed, the Company may suffer significant damage through loss of the opportunity to develop and discover any mineral resources on that tenement.

5.5 Native Title Risks

Some or all of the mining tenements held by the Company may be subject to native title claims in the future. Should a native title claim be lodged in respect to one of the Company's mining tenements, it may have a material adverse effect on the Company's business and its financial condition and performance.

5.6 Policies and Legislation

Any material adverse changes in government policies or legislation affecting mining and exploration activities may affect the viability and profitability of the Company.

5.7 Joint Venture Parties and Contractors

The Directors are unable to predict the risk of:

- financial failure or default by a participant in any joint venture to which the Company is, or may become, a party; or
- insolvency or other managerial failure by any of the contractors used by the Company in its exploration or other activities; or
- insolvency or other managerial failure by any of the other service provider used by the Company for any activity.

5.8 Future Capital Needs and Additional Funding

The future capital requirements of the Company will depend on many factors including the results of any future exploration and work programs, and the ability to successfully exploit identified mineral deposits. The Company believes its available cash and the net proceeds of this Offer should be adequate to fund the continued exploration and development of the projects and other Company objectives as stated in this Offer.

Should the Company require additional funding there can be no assurance that additional financing will be available on acceptable terms, or at all. Any inability to obtain additional finance, if required, would have a material adverse effect on the Company's business and its financial condition and performance.

5.9 Operating Risks

Many of the Company's mineral assets are in a pre-development phase. As a result, the Company will be subject to all the risks inherent in the establishment of new mining operations. No assurances can be given to the level of viability that the Company's operations may achieve.

The operations of the Company, if and when it commences production, may be disrupted by a variety of risks and hazards which are beyond the control of the Company, including environmental hazards, industrial accidents, technical failures, labour disputes, unusual or unexpected rock formations, flooding and extended interruptions due to inclement or hazardous weather conditions, fire, explosions and other incidents beyond the control of the Company.

These risks and hazards could also result in damage to, or destruction of, production facilities, personal injury, environmental damage, business interruption, monetary losses and possible legal liability. While the Company currently intends to maintain insurance within ranges of coverage consistent with industry practice, no assurance can be given that the Company will be able to obtain such insurance coverage at reasonable rates (or at all), or that any coverage it obtains will be adequate and available to cover any such claims.

5.10 Commodity Price Volatility

It is anticipated that any revenues derived from mining will primarily be derived from the sale of nickel and cobalt. Consequently, any future earnings are likely to be closely related to the price of these commodities and the terms of any off-take agreements which the Company enters into.

Nickel and cobalt prices may fluctuate and are affected by numerous factors beyond the control of the Company. These factors include world demand for nickel and cobalt, forward selling by producers, and production cost levels in other nickel and cobalt producing regions.

Moreover, nickel and cobalt prices are also affected by macroeconomic factors such as expectations regarding inflation, interest rates, currency and exchange rate fluctuations, and global and regional demand for, and supply of, the metals as well as general global economic conditions. These factors may have an adverse effect on the Company's exploration, development and production activities, as well as on its ability to fund those activities.

5.11 Environmental Risks

The Company's projects are subject to Western Australian and Federal Australian laws and regulations regarding environmental matters and the discharge of hazardous wastes and materials. As with all mining projects, these projects would be expected to have a variety of environmental impacts should development proceed. The Company intends to conduct its activities in an environmentally responsible manner and in accordance with applicable laws.

5.12 Economic Risk

Changes in customer preference or the general economic climate in which the Company operates may adversely affect the financial performance of the Company. Factors which may contribute to that general economic climate include the level of direct and indirect competition against the Company, industrial disruption in Australia, the rate of growth of Australia's gross domestic product, interest rates and the rate of inflation.

5.13 Litigation risk

The Company is subject to litigation risks. All industries, including the minerals exploration industry, are subject to legal claims, with and without merit. Defence and settlement costs of legal claims can be substantial, even with respect to claims that have no merit.

Due to the inherent uncertainty of the litigation process, the resolution of any particular legal proceeding to which the Company is or may become subject could have a material effect on its financial position, results of operations or the Company's activities.

5.14 Reliance on Key Personnel

The Company is reliant on a number of key employees. The loss of one or more of its key personnel could have an adverse impact on the business of the Company.

5.15 Tax Reform

The Australian Government has indicated that it may introduce further tax reform. The introduction and scope of this further tax reform is uncertain. Until the precise nature of this reform is determined, the Company is not able to give any assurance as to the impact on its operating and financial performance.

5.16 COVID-19

The global economic outlook is facing uncertainty due to the current COVID-19 pandemic, which has been having, and is likely to continue to have, a significant impact on global capital markets, commodity prices and foreign exchange rates (including the USD / AUD rate).

To date, COVID-19 has not had any material impact on the Company's operations, however, any changes to infection rates within Western Australia or Australia as a whole may result in the Company's operations being suspended or otherwise disrupted for an unknown period of time, which may have an adverse impact on future cash flows and financial condition.

Supply chain disruptions resulting from the COVID-19 pandemic and measures implemented by governmental authorities around the world to limit the transmission of the virus (such as travel bans and quarantining) may, in addition to the general level of economic uncertainty caused by the COVID-19 pandemic, also adversely impact the Company's operations, financial position and prospects.

The Company has implemented a COVID-19 management plan across its business at all locations in order to minimise the risk of infection for individuals. This includes non-essential travel bans for personnel and working from home.

The Company's COVID-19 management plan is reviewed and updated based on the latest guidance from health professionals and the government as the situation develops.

6. Action Required by Shareholders

6.1 Acceptance of shares under this Offer Document

Should you wish to accept all of your Entitlement to subscribe for New Shares, then applications for New Shares under this Offer Document must be made on the Entitlement and Acceptance Form which accompanies this Offer Document, in accordance with the instructions referred to in this Offer Document and on the Entitlement and Acceptance Form. Please read the instructions carefully.

If you are using the BPay facility as per the instruction on the Entitlement and Acceptance form you do not need to return the form as your acceptance and details are recorded electronically. BPAY is the fastest and easiest way to apply and is recommended by the Registry in light of delays to postal services caused by the COVID-19 pandemic.

If you wish to pay manually, please complete the Entitlement and Acceptance Form by filling in the details in the spaces provided and attach a cheque for the amount indicated on the Entitlement and Acceptance Form.

Completed Entitlement and Acceptance Forms must be accompanied by a cheque in Australian dollars, crossed 'Not Negotiable' and made payable to 'GME Resources Limited' and lodged at any time after the issue of this Offer Document so that they are received on or before the Closing Date at GME Resources' share registry (by post) at the addresses in section 6.5.

If you take up and pay for all of your Entitlement, before the close of the Entitlement Offer, it is expected that you will be issued New Shares on 7 August 2020. GME's decision on the number of New Shares to be issued will be final. Acceptance of any applications is subject to compliance with the Corporations Act, Foreign Acquisitions and Takeovers Act 1975 (Cth) and other applicable laws.

GME also reserves the right (in its absolute discretion) to reduce the number of New Shares issued if GME believes an applicant's claim to be overstated or if an applicant or their nominees fail to provide information to substantiate their claims to GME's satisfaction.

Please also see section 2.3 which contains further details regarding the Shortfall Shares.

6.2 If you wish to sell all your Entitlement on ASX

Follow the instructions on the bottom section of the front of the accompanying Entitlement and Acceptance Form marked "Sale of your Entitlement rights in full by your Stockbroker/Agent".

Entitlement trading on the ASX commences on 8 July 2020 and the sale of your Entitlement must be completed by the close of trading on the ASX on 24 July 2020 when Entitlement trading ceases.

6.3 If you wish to take up part of your Entitlement and sell the balance of your Entitlement on the ASX

Complete the accompanying Entitlement and Acceptance Form for that part of your entitlement that you wish to accept, complete payment via Bpay or return the form and payment to the registry in the envelope provided and follow the instructions on the bottom section of the front of the Form marked "Sale of your Entitlement rights in part by your Stockbroker/Agent and take up the balance" for the balance of the Entitlement that you wish to sell on the ASX.

Entitlement trading commences on the ASX on 8 July 2020 and the sale of your Entitlement must be completed by the close of trading on the ASX on 24 July 2020, when Entitlement trading ceases.

6.4 If you wish to transfer all or part of your Entitlement to another person other than on the ASX

Forward a completed standard renunciation form(s) (obtainable from your stockbroker or from the share registry) together with your Entitlement and Acceptance Form completed by both the transferor and transferee and the transferee's payment for the amount due in respect of the entitlement to be taken up by the transferee (being the number of New Shares taken up by the transferee multiplied by \$0.03) to the share registry so that it is received by the share registry no later than 5.00pm WST on 24 July 2020. The addresses of the share registry are:

by mail to:

Computershare Investor Services Pty Limited
GPO Box 52
Melbourne, Victoria 3001

or by courier to:

Computershare Investor Services Pty Limited
452 Johnson Street
Abbotsford VIC 3067

6.5 If you wish to take up part of your Entitlement only

Should you wish to only take up part of your Entitlement, then applications for New Shares under this offer must be made on the Entitlement and Acceptance Form which accompanies this document in accordance with the instructions referred to in this document and on the Entitlement and Acceptance Form. Please read the instructions carefully.

Please complete the Entitlement and Acceptance Form by filling in the details in the spaces provided, including the number of New Shares you wish to accept and the amount payable (calculated at \$0.03 per New Share accepted), and attach a cheque for the appropriate Application Monies.

Completed Entitlement and Acceptance Forms must be accompanied by a cheque in Australian dollars, crossed "Not Negotiable" and made payable to "GME Resources Limited" and lodged at any time after the issue of this offer document so that they are received on or before the Closing Date at the Company's share registry (by post) to:

By Post

Computershare Investor Services Pty Limited
GPO Box 505
Melbourne VIC 3001

If you are using the BPay facility as per the instruction on the Entitlement and Acceptance form you do not need to return the form as your acceptance and details are recorded electronically. You simply BPay the amount corresponding to the number of New Shares you wish to accept. BPAY is the fastest and easiest way to apply and is recommended by the Registry in light of delays to postal services caused by the COVID-19 pandemic.

6.6 Entitlements not taken up

If you do not wish to accept any of your Entitlement, you are not obliged to do anything. In that case, New Shares not accepted by the Closing Date will become Shortfall Securities and you will receive no benefit.
